

JAGA COLOURS

Jaga has environmentally-friendly electrostatic powder coating lines. Excess powder is recuperated and no solvents are used during this process. After having been thoroughly pretreated, the units are powder coated and baked. This ensures that the unit is both UV and scratch resistant..

What does the first digit of the colour code stand for?

Code 1xx Soft touch: finely-textured matte look, gloss degree \leq 10%

Code 2xx Glossy: smooth gloss finish, gloss degree +/- 70%

Code 3xx Satin: smooth satin look, gloss degree +/- 30%

Code 0xx Metal lookalikes: the finish and the degree of gloss simulate the imitated material

All our lacquered units are available in every code, except for the Strada, Linea Plus, Mini, Briza, Vertiga Hybrid, and Freedom units. These units are not available in Code 2xx Glossy and Code 3xx Satin.

Our grilles and frames are available in all colours, with the exception of Sandblast grey 001. In case of intensive use (placement in circulation areas, for example in front of sliding windows and doors), wear is, of course, inevitable.

This colour chart has been compiled with the greatest care, nevertheless, minor deviations are possible.
